## 8 Eco-feminism Symposium

~~Theresa~~ Silvia Tiedeschi

- intervention of eco fem groups in Europe
- stopping nuclear deployment
- reproduction, care work, extends beyond the home
- War against the land, against production of food
- Eco-feminism brought/broadening fem. thinking

[For us feminism is seed banks]

struggle against destruction

Control of food is control over life

Food is culture

• taking ~~more~~ charge of food production

- when gov/industry take control of food, take control of everything

The forest is a whole reproductive system

- deforestation is an entire destruction of life

\* Continuity → continuing our ancestral lineage - Seeds/food  
 Communal land ownership → community: you don't face  
 crises by yourself

Nature/Culture - Donna Haraway

Nature: a whole set of prophecy → fabricated terms

\* Urban gardens \*

Issa Newton wrote book on how to spot a witch

[Commonization] [How to center social needs]

LOVE IS A GREAT POWER

technology is not the problem - capitalism is the problem  
 capitalism technology was not motivated by needs of

the people, but need to control, need for profits  
 Identity: deactivate the modes of capitalism  
 - perspective in future  
 - overcome in the ways they divide us  
 - creating the possibility of another world

2<sup>nd</sup> panel

go back to Patty Chang

• Uya-

• Diana Thater

\* that these specimens are the inhabitants of this land. To not think of human non-human, but as mutual inhabitants. With the onset of climate change, the work of Dr. Miglore is a time capsule. This work can never be replicated. In one of my last conversations with him, he spoke how he could not find some of the specimens. Poachers take more than they should.

• natural world - always in a state of becoming "fem"  
 • running business w/ feminist values

Angela Davis - w. use feminism for women oppression  
 - how do we cut through that  
 - criminalization through a population

\* Revolution now has to be more radical than Reality  
 [shadow places] ancestral knowledge

900 Mar /

- we all have ancestral knowledge, we have to evoke it - in tune w/ institutional knowledge

Love your neighbor as yourself

- Matizual -

tentative of being human being

Matizual warriors against patriarchal violence

- planetary - ~~environment~~ all of us together

"Just transitions"

- producing not as important as the relationships
- "level ground"

\* Radical Fantasy Imagination \*

The Intersectional Environmentalist

how to imagine the future → what could the world look like

LEAH → whoever will listen - climate optimism

- post-funding situation, post-education situation

→ 100% non-monetary - how do we collaborate w/out \$

Imagines that I hold - privileges to be able to imagine the future ]

Sense of belonging → connection to plants

there is grief? healing that has to happen

- deep listening to understand

Vernant de Phet? what would animals say if we ask them the right questions
